

Armor All Carpet & Uph. Stain Remover

Safety Data Sheet

1. Identification of Substance and Company

Product Name:	Armor All Armor All Carpet & Upholstery Stain Remover
Other Names:	None
HSNO Approval:	HSR002530 - Cleaning Products (Subsidiary Hazard) Group Standard 2006
Proper Shipping name	Not allocated
DG class	NA
UN Number:	NA
Packaging group:	Not Applicable
Hazchem Code:	1T (recommended)
Uses:	Carpet and Upholstery Stain remover

Company Details

Company:	Spectrum Brands New Zealand Limited
Address:	Level one, 8 Hugo Johnson Drive, Penrose, 1061, Auckland, New Zealand
Telephone Number:	+64-9-571-7700
Emergency Telephone Number:	0800 764 766

2. Hazard Identification

Hazard Classifications

This product is an approved substance under the Hazardous Substances and New Organisms Act (HSNO, Approval HSR002530 - Cleaning Products (Subsidiary Hazard) Group Standard 2006), and is classified as follows:

Classes 6.3A, 6.4A, 6.9B

Symbols:
WARNING

Other classifications

There are no other Classifications that are known to apply.

Hazard and Precautionary Statements

Hazard Statements	Causes skin irritation. Causes eye irritation.
Precautionary Statements	May cause damage to organs Keep out of reach of children. Read label before use. Wash hands thoroughly after handling. Wear protective gloves/protective clothing. Wear eye/face protection. Do not breathe vapours. Wash hands thoroughly after handling. Do not eat, drink or smoke when using this product. Avoid release to the environment. Collect spillage.

Further precautionary statements can be found in Section 4 – First Aid.

3. Composition/Information on Ingredients

Component	CAS/ Identification	Conc (%)
Water	7732-18-5	>90%
Hydrogen Peroxide	7722-84-1	1-8%
Surfactants	Proprietary	<5%
Fragrance	Proprietary	<1%

This is a commercial product whose exact ratio of components may vary. Trace quantities of impurities are also likely.

Armor All Carpet & Uph. Stain Remover

Safety Data Sheet

4. First Aid	
<i>General Information</i>	
You should call the National Poisons Centre if you feel that you may have been harmed or irritated by this product. The number is 0800 764 766 (0800 POISON) (24 hr emergency service). If medical advice is needed, have product container or label at hand.	
Recommended first aid facilities	Ready access to running water is required. Accessible eyewash is recommended.
<i>Exposure</i>	
Swallowed	IF SWALLOWED: Immediately call a POISON CENTER or doctor/physician. Do NOT induce vomiting .Rinse mouth.
Eye contact	IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Apply continuous irrigation with water for at least 15 minutes holding eyelids apart. If eye irritation persists: Get medical advice.
Skin contact	IF ON SKIN: Wash with plenty of soap and water. If skin irritation occurs: get medical advice/attention. Take off contaminated clothing and wash before re-use.
Inhaled	No first aid measures normally required. However, if vapours or mists have been inhaled, and irritation has developed, remove to fresh air and observe until recovered. If irritation becomes painful or persists more than about 30 minutes, seek medical advice.
<i>Advice to Doctor</i>	
Treat symptomatically.	
5. Firefighting Measures	
Fire and explosion hazards	There are no specific risks for fire/explosion for this chemical. It is predominantly water and non-flammable.
Suitable Extinguishing Substances	This product does not burn. Use extinguishing media suited to the materials that are burning.
Unsuitable extinguishing substances	None known.
Protective Equipment	Safety boots, non-flammable overalls, gloves, hat and preferably goggles. All skin areas should be covered.
Danger caused by material, its combustion products or gases produced	Fire decomposition products from this product may form toxic and corrosive mixtures in confined spaces. Likely to decompose only after heating to dryness followed by further strong heating. Product of decomposition: Carbon dioxide, and if combustion is incomplete, carbon monoxide and smoke. Water.
Hazchem Code	1[T] (note: not a dangerous good)
6. Accidental Release Measures	
Containment	There is no current legal requirement for containment of this product. Secondary containment is recommended.
Emergency procedures	The bottle size generally will prevent major spills. If a spill occurs: Stop leak if safe/necessary; Isolate area (ensure no persons inside spill area) Collect spill – see below; Transfer to container for disposal Dispose of according to guidelines below (Section 13)
Clean-up method	This product is not considered flammable. It can be collected by absorption onto material such as sand, vermiculite or other suitable absorbent material. Small spills do not require any special clean up method. Larger spills (e.g., 200 L) should be prevented from entering stormwater drains or waterways. If a significant quantity of material enters drains, advise emergency services.
Disposal	Sweep up and shovel or collect recoverable material into labelled containers for recycling or salvage and dispose of promptly. Recycle containers wherever possible. This material may be suitable for approved landfill. Dispose of only in accord with all regulations.
Precautions	Wear protective footwear, overalls, gloves and safety glasses to clean-up large spills. Can be slippery on floors, especially when wet.
7. Handling and Storage	
Storage	Avoid storage of toxic substances with food. Store out of reach of children. Containers should be kept closed in order to minimise contamination. Keep from extreme heat and open flames. Avoid contact with incompatible substances, as listed in Section 10.
Handling	Keep exposure to a minimum, and minimise the quantities kept in work areas. See section 8 with regard to personal protective equipment requirements.

Armor All Carpet & Uph. Stain Remover

Safety Data Sheet

8. Exposure Controls/Personal Protection Equipment

Workplace Exposure Standards

A workplace exposure standard (WES) has not been established by WorkSafe NZ for this product. There is a general limit of 10mg/m³ for dusts and mists when limits have not otherwise been established.

NZ Workplace Exposure Standards (2016).	Ingredient	WES- TWA	WES- STEL
	Hydrogen peroxide	1ppm, 1.4mg/m ³	No data

Engineering Controls

In industrial situations, it is expected that employee exposure to hazardous substances will be controlled to a level as far below the WES as practicable by applying the hierarchy of control required by the Health and Safety at Work Act (2015) and the Health and Safety at Work (General Risk and Workplace Management) Regulations 2016. Exposure can be reduced by process modification, use of local exhaust ventilation, capturing substances at the source, or other methods. If you believe air borne concentrations of mists, dusts or vapours are high, you are advised to modify processes or increase ventilation.

Personal Protective Equipment

Eyes  Protective eyewear is not normally necessary when using this product. However, it is always prudent to use protective eyewear.

Skin  Protective gloves are not normally necessary when using this product. However, it is always prudent to wear gloves, particularly if sensitive to chemicals.

Respiratory Respirator is not required under normal use. If product is being used in confined conditions, the use of a mask or respirator may be preferred.

9. Physical and Chemical Properties

Appearance:	Clear colourless liquid
Odour	Mild odour
pH	4.5-5.0 (specification)
Vapour pressure	Water vapour pressure
Vapour density	No data
Boiling point	Approximately 100°C at 100 kPa
Volatile materials	Water component
Softening/melting point	Approximately 0°C
Solubility	Completely soluble in water
Specific gravity or density	1.0g/ml @ 20°C
Flash point	Not applicable (does not burn)
Upper & lower flammable limits	Not applicable (does not burn)
Auto ignition temperature	Not applicable (does not burn)
Corrosiveness	Not corrosive

10. Stability and Reactivity

Stability	Stable - unlikely to react/decompose under normal conditions
Conditions to be avoided	Mixing with other cleaning chemicals should be avoided.
Incompatible materials	No particular incompatibilities
Hazardous decomposition products	Carbon dioxide, and if combustion is incomplete, carbon monoxide and smoke. Oxides of sulfur. Water.
Hazardous reactions	No specific hazards.

11. Toxicological Information

Summary

Limited data available on the mixture. This product is not considered toxic if swallowed, absorbed through the skin or inhaled. It is considered a skin and eye irritant. There are no long-term effects associated with exposure by any route.

Supporting Data

Acute:	Oral	This mixture is not considered to be harmful if swallowed. Using LD ₅₀ 's for ingredients, the calculated LD ₅₀ (oral, rat) for the mixture is >5,000 mg/kg.
	Dermal	
	Inhaled	No evidence of dermal toxicity.
	Eye	No evidence of inhalation toxicity.
	Skin	Hydrogen peroxide is an eye corrosive at higher concentrations. This mixture is likely to be an eye irritant.
		Hydrogen peroxide is a skin corrosive at higher concentrations. This mixture is considered to be a skin irritant.

Armor All Carpet & Uph. Stain Remover

Safety Data Sheet

Chronic:	Sensitisation:	No evidence of sensitisation for the mixture or any of its components (>0.1%)
	Mutagenicity:	No evidence of mutagenicity for the mixture or any of its components (>0.1%)
	Carcinogenicity:	No evidence of carcinogenicity for the mixture.
	Reproductive / Developmental:	No evidence of reproductive toxicity for the mixture or any of its components (>0.1%).
	Systemic:	Hydrogen Peroxide is classed as a suspected systemic toxicant by EPA. Exposure may lead to irritation of mucous membranes and effects on the lung.

Aggravation of Existing Conditions:	None known.
--	-------------

12. Ecological Data

Summary

This product is unlikely to be considered ecotoxic in water or to land-based animals. However, as there is insufficient evidence relating to some of the confidential ingredients, the product has been conservatively classed as 9.1D (mildly ecotoxic)

Supporting Data

Aquatic	Limited data available on the mixture. Hydrogen peroxide is classed by EPA as 9.1D. At the concentration present in this mixture, this classification is not triggered and the mixture is not considered harmful in the aquatic environment.
Bioaccumulation	Not considered bioaccumulative.
Degradability	Considered rapidly degradable.
Soil	Not considered toxic in soil.
Terrestrial Vertebrate	Animal-based acute toxicity data indicates low toxicity for terrestrial vertebrates
Terrestrial Invertebrate	No evidence of terrestrial invertebrate toxicity for the mixture or any of its components.
Biocidal	The product is not designed as a biocide.

13. Disposal Considerations

Restrictions	There are no product-specific restrictions, however, local council and resource consent conditions may apply, including requirements of trade waste consents.
Disposal method	Dispose of residue and solutions that cannot be reused to sewer. If this is not possible dilute with water (at least 5 times as much water) and drain.
Contaminated Packaging	Rinse containers with water before disposal. Preferably re-cycle container, otherwise send to landfill or similar.

14. Transport Information

There are no specific restrictions for this product (not a dangerous good).

UN Number	NA	Proper Shipping Name	NA
Class(es)	NA	Packing group	NA
Precautions	NA	HAZCHEM code	1T (recommended)

15. Regulatory Information

This product has been approved under the Hazardous Substances and New Organisms Act (EPA approval code: HSR002530 Cleaning Products (Subsidiary Hazard) Group Standard 2006.

Specific Workplace Controls (as per HSNO approval referenced to Controls Matrix)

Key workplace requirements are:	
SDS	To be available within 10 minutes in workplaces storing >50L.
Labelling	No removal of labels and/or decanting of product into other containers can occur.
Emergency plan	Not required.
Approved handler	Not required.
Tracking	Not required.
Bundling & secondary containment	Not required.
Signage	Not required.
Location Test certificate	Not required.
Flammable zone	Not required.
Fire extinguisher	Not required.
Note: The above workplace requirements apply if only this particular substance is present. The complete set of controls for a location will depend on the classification and total quantities of other substances present in that location.	

Other Legislation

In New Zealand, the use of this product may come under the Resource Management Act and Regulations, the Health and Safety at Work Act 2015 and the Health and Safety at Work (General Risk and Workplace Management) Regulations 2016, local Council Rules and Regional Council Plans.

Armor All Carpet & Uph. Stain Remover

Safety Data Sheet

16. Other Information	
<i>Abbreviations</i>	
Approval Code	Approval HSR002530 Cleaning Products (Subsidiary Hazard) Group Standard 2006.Controls, EPA. www.epa.govt.nz
CAS Number	Unique Chemical Abstracts Service Registry Number
Ceiling	Ceiling Exposure Value: The maximum airborne concentration of a biological or chemical agent to which a worker may be exposed at any time.
Controls Matrix	List of default controls linking regulation numbers to Matrix code (e.g. T1, I16).
EC₅₀	Ecotoxic Concentration 50% – concentration in water which is fatal to 50% of a test population (e.g. daphnia, fish species)
EPA	Environmental Protection Authority (New Zealand)
HAZCHEM Code	Emergency action code of numbers and letters that provide information to emergency services, especially fire fighters
HSNO	Hazardous Substances and New Organisms (Act and Regulations)
IARC	International Agency for Research on Cancer
LEL	Lower Explosive Limit
LD₅₀	Lethal Dose 50% – dose which is fatal to 50% of a test population (usually rats).
LC₅₀	Lethal Concentration 50% – concentration in air which is fatal to 50% of a test population (usually rats)
MSDS/SDS	Material Safety Data Sheet (or Safety Data Sheet)
PES	Prescribed Exposure Standard means a WES or a biological exposure standard that is prescribed in a regulation, a safe work instrument or an approval under HSNO (including group standards).
STEL	Short Term Exposure Limit - The maximum airborne concentration of a chemical or biological agent to which a worker may be exposed in any 15 minute period, provided the TWA is not exceeded
TWA	Time Weighted Average – generally referred to WES averaged over typical work day (usually 8 hours)
UEL	Upper Explosive Limit
UN Number	United Nations Number
WES	Workplace Exposure Standard - The airborne concentration of a biological or chemical agent to which a worker may be exposed during work hours (usually 8 hours, 5 days a week). The WES relates to exposure that has been measured by personal monitoring using procedures that gather air samples in the worker's breathing zone.
